Taylor Hobbs

Programmer

St. Paul, MN

I am a software developer currently residing in the St. Paul, MN area. I am passionate about developing web apps in an array of programming languages and frameworks. I enjoy learning about new design patterns and solving interesting problems. Programming is more than my job, it is my passion.

Experience

Programmer
IMT Computer Services
West Des Moines, IA
Jun 2015 - Present
Building and maintaining Django and Ember projects while using Agile practices and Pair Programming, as well as continuous deployment and integration. I also have the opportunity to work with Amazon Web Services extensively throughout my work day.
